Material	Black aluminium frame with quick release steel straps.						

Instructions for Use

- Remove black base from the fire extinguisher
- Secure bracket to wall and/or suitable surface using fixings that will support the weight of the bracket and fire extinguisher
- If hose is fitted to the fire extinguisher, ensure hose is on outside of quick release straps
- Place extinguisher into the bracket
- Ensure the pressure gauge is facing forwards
- Secure and clip together the quick release straps
- If hose is fitted to the fire extinguisher, re-secure hose over the straps
